

100 Ton Safety Locking Jack

MODEL 10809

*Lifting Capacity:
100 Ton | 200,000 lbs.*

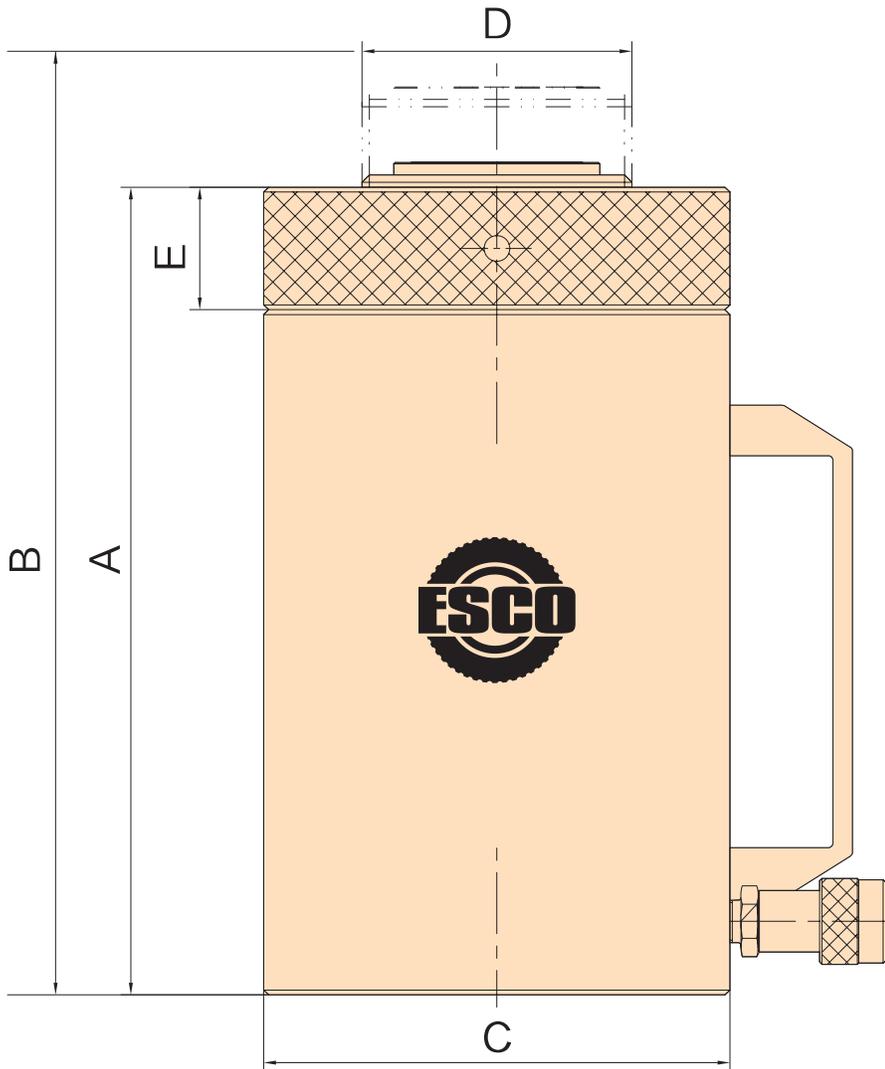

*Assembled with
valve and coupler*

*Carrying Handle
For Easy Positioning
of Cylinder.*

Benefits & Features:

- ▶ Safety Lock Nut For Mechanical Load Holding.
- ▶ Designed for use in multiple heavy lifting applications including OTR/Mining.
- ▶ Heavy Duty Aluminum Design at a fraction of the weight.
- ▶ High Flow quick connect coupler for easy connection.
- ▶ Lightweight and Compact Design makes unit highly portable.

The ESCO Professional Aluminum Locking Collar Jacks (Cylinders) are known for their quality and lightweight durable design. The most important part of lifting a heavy load is the ability to sustain the load. While most instances support jack stands are used; the Locking Collar Jack (Cylinder) acts as its own self-contained support stand. This aids in complying with OSHA regulation 29CFR1926.305.

Model	10809
Capacity	100 Ton
Net Weight	66 lbs.
Stroke	6"
Cylinder Effective Area	20.58" (in ²)
Oil Capacity	128.39" (in ³)
Collapsed Height (A)	13.37"
Extended Height (B)	19.60"
Outside Diameter (C)	7.44"
Piston Rod Diam. (D)	Tr110x6mm
Nut Thickness (E)	1.97"
