- Special hook for transport and easy transport of jack.
- Standard remote control for lifting and lowering jack from a safe distance away from the load.
- Accessories available - See back of flyer for details.
- 100% manufactured in Italy
- One Year Warranty

HPM
HIGH - PERFORMANCE - MOTORPUMP

The new HPM motor pump, fitted on the M80/31, M80/42 and M100/40 jack, is the technological evolution of the previous version. Made of special materials to prevent corrosion and deformation even with intensive use and in adverse environments, it is free of any plastic parts to ensure long life and high performance.

With a performance improvement between 40% and 95% in terms of speed under load, and a frequency increased by 108%, it provides faster and more effective lifting even in the most severe conditions.

Designed and produced entirely in-house, it is the maximum technological evolution of our jacks.

SPECIFICATIONS

Model	91043
Style	M100-40
Capacity	110 ton 100 t
Net Weight	370 lb 168 kg
Working Air Pressure	145-174 psi 10-12 bar
Air Consumption	600 nl/min
Max. Height	23.7 in 602 mm
Min Height	15.7 in 399 mm
Number of Pistons	1
Stroke	8 in 203 mm
Application	Mine and oil field, Construction site, Industrial assembly, Agricultural, Railway applications, Military
Warranty	One Year Warranty
UPC	816904025489

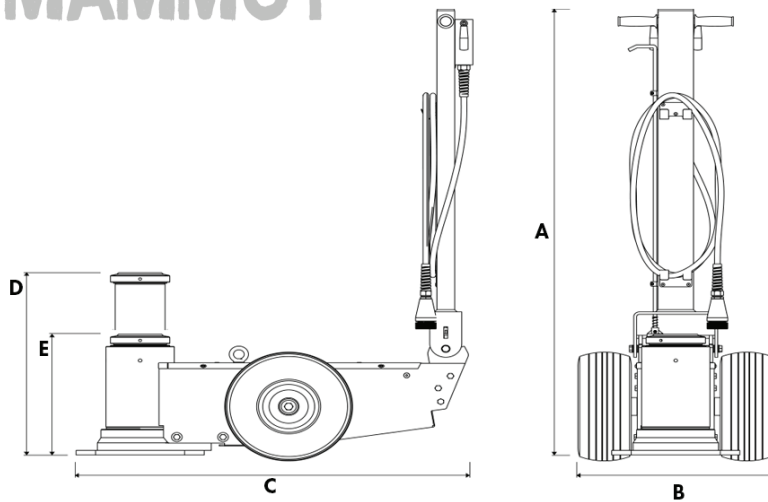

Specifications & Accessories

MODEL 91043

The **MAMMUT RANGE OF JACKS** offers service professionals a solution that is safe and easy to use, for all those operations to lift earthmoving, construction, quarry, and mining machinery, where maintenance requires professional skills and expertise. All models are air/hydraulic operated and equipped with a dual descent valve for greater control when bearing weight and automatic piston return; they can also be fitted with a manual emergency pump (on request).
