MODEL 20436 | 20437

SAVE THE TIRE. SAVE THE TOOL.

Even force distribution minimizes pressure spikes, cutting hydraulic system strain by up to 60% and extending the lifespan of bead breakers and pumps. It is recommended to use (2) or more **MEGABITES** to properly break bead and remove tire from wheel.

NOTE: ESCO reserves the right to change, alter, or modify product(s) without notice. This includes but is not limited to product: color, design, parts, accessories, etc.
