MODEL 20387-B

BENEFITS & FEATURES:

- **10-Port Cyclone Air Design:** Distributes air evenly across the bead area for quicker, more consistent seating.
- **Safer Operation – Greater Distance:** Focused airflow lets users stand further back for a safer working position.
- **Cyclonic Air Power:** Each port channels high-velocity air in a spiral pattern that instantly seals stubborn commercial, agricultural, and OTR tires.
- **Indestructible Composite Construction:** Built from a heavy-duty, non-metallic polymer that resists impact, corrosion, and deformation lasting longer and performing more reliably than steel.

SPECIFICATIONS:

MODELS 20387-B

The **ESCO CYCLOBURST™ BARREL MODEL 20387-B** delivers next-generation air flow for faster, safer, and more consistent bead seating. Unlike standard single-port or “wide-nose” barrels, the CycloBurst Barrel features ten precision air ports that unleash a wider, more controlled wall of air directly into the tire bead gap creating an instant seal and faster seat on even the toughest tires. Designed to fit any 2-inch bead seating tank, the CycloBurst Barrel gives technicians greater distance, safety, and control with every blast.

WORKS WITH :

BEST WHEN USED: SUPER-SEATER BEAD SEATING VALVE

**50%
FASTER
THAN
TRADITIONAL
AIR CHUCKS**

- **Increases Air Volume:** Doubles your air volume (CFM) with larger unrestricted passages for optimal performance.
- **Optimal Performance With Certified Bead Seater Tanks:** Best used with certified bead seater tanks like Cyclone or Hurricane for enhanced results.

LARGE BORE

MODEL 10976 | 10978

STANDARD BORE

MODEL 10988 | 10993
