

STAK-ABLE HYDRAULIC RAM KIT - 10 ton capacity stacking extension ram set

models 10316

- Great for use in multiple applications in the tire/wheel service market and many more.
- Easy to switch out extensions for optimal extension length.
- Ideal for low clearance applications.
- Made of high-quality steel.

The high quality **STAK-ABLE 10 TON HYDRAULIC RAM KIT (MODEL 10316)** is specifically designed for a wide range of heavy duty applications. The Stak-able Ram Kit eliminates the tedious effort required to push rusted, corroded wheels off of hubs. Ideal for stubborn 22.5 and 24.5 wheels, the Stak-able Ram Kit is far more resilient and robust than any other equipment alike on the market. Designed for applications in heavy-duty commercial and OTR industry use. Use extensions within the kit separately or stack them together as a single long extension.

ONE RAM. MULTIPLE OPTIONS.

Applicable for any lifting or pushing application in the market, with a minimum height of 3.5 inches and maximum (with all extensions and saddle) of 11.25 inches.

HD STORAGE CASE INCLUDED

Heavy duty constructed case fits 10 ton ram and accessories with ease and keeps all the parts together. EVA foam fit for each part.
