INTERLOCKING STEEL CRIBBING STANDS

make heavy duty lifting easier and faster. Stands can be used individually or stacked together for various heights. Each stand has a recessed area specifically made to securely support hydraulic cylinders or outriggers.

- 55 ton capacity per stand.
- Each steeling cribbing stack has a 12 in. diameter. (305 mm)
- Durable high grade steel, will not bend or warp.
- Easy transportation and placement with safety handles.
- Cylinder side is not recessed.

SUPPORT PLATES - create stability on uneven surfaces for solid safe lifting/support foundation(s)

model 10751 | 10752 | 10753 | 10754 | 10756

ESCO JACK PLATES provide a stable, non-slip surface on any terrain for jacks, jack stands, outriggers, trailer tongues, RV pads, and more. Ideal for soft earth, uneven, or muddy surfaces, these heavy-duty support plates are corrosion and waterproof. They come with a **LIFETIME GUARANTEE AGAINST BREAKAGE***.

*subject to qualification; see warranty for more details on page 6.

- No more cracked, warped, bulky wooden blocks.
- Lightweight, corrosion & rot-proof.
- Will not absorb moisture - ideal for outdoor use.
- Will not break under load, mushroom, or warp.
- Increases the surface area for better stability.
- Great in soft earth or uneven ground.

SUPPORT WHEN YOU NEED IT MOST

Support plates are utilized on uneven terrain to create a stable and level foundation, enhancing safety and preventing damage while lifting or stabilizing heavy loads.

ALLOWS EMPLOYER TO COMPLY WITH OSHA REGULATION 29 CFR 1926.305 BLOCKING FOR A FIRM FOUNDATION

- **CORROSION PROOF**
- **LIGHTWEIGHT**
- **LIFETIME WARRANTY**
